

## Omnidirectional Antenna Mounting Fixture, 5.7" Diameter

### Description:

**Model SAX-ME5700-C1-18.5** is a mounting fixture for SAGE Millimeter's model **SAO-2734030810-28-S1** and **SAO-2734030810-KF-S1** omnidirectional antennas. The mount has 0.20" diameter holes, which allow for 10-32 screws to attach the antenna to the mount. The center of the mount is open to allow for the antenna to be connected to a wide variety of system setups, such as cabling or plumbing. The fixture is designed and fabricated by using durable and microwave friendly plastic material to offer maximum mechanical strength and minimum signal interference.

### Features:

- Low Microwave Interference
- Designed for SAO-2734030810-28-S1 and SAO-2734030810-KF-S1
- Indoor and Outdoor Applications

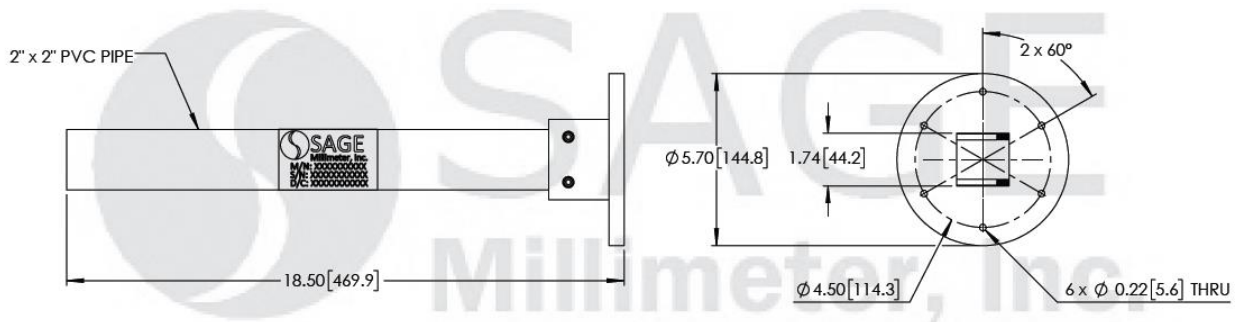

### Applications:

- Antenna Mount
- Antenna Range
- Test Lab

### Mechanical Specifications:

| Item       | Specification        |
|------------|----------------------|
| Material   | Plastic              |
| Weight     | 17.4 Oz              |
| Dimensions | 5.7" (Ø) x 18.5" (H) |
| Outline    | AX-ME5700-C-18.5     |

**Mechanical Outline:** (Unless otherwise specified, all dimensions are in inches [millimeters])
