

## Standard Antenna Mounting Fixture, 0.75" Square Flange

### Description:

**Model SAX-MT0750-S1** is a mounting fixture for standard horn antennas with UG-599/U standard flanges. The fixture is designed and fabricated by using durable and microwave friendly plastic material to offer minimum reflection. The fixture has a standard 1/4-20 threaded hole for convenient tripod mounting. It also has four through holes for 6-32 screws for non-tripod mountings. The mounting fixtures for the standard horns with UG-387/U, UG-383/U and UG-595/U etc. flanges are also offered under different model numbers.

### Features:

- Low Microwave Interference
- UG-599/U Flange Mount
- 1/4-20 Threaded Hole for Tripod Mount
- Through Holes for Non-Tripod Mount

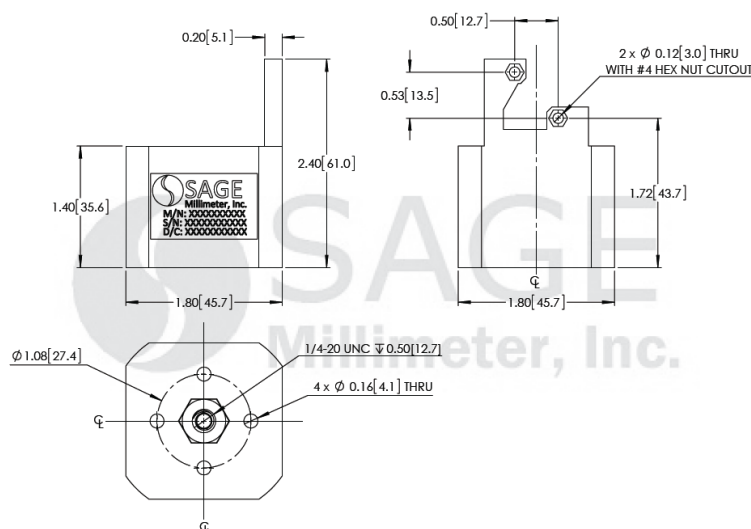

### Applications:

- Antenna Mount
- Antenna Range
- Test Lab
- Waveguide Support

### Mechanical Specifications:

Item	Specification
