

SAX-MT1125-CL1

L-Style, Antenna Mounting Fixture, 1.125" Circular Flange

SAX-MT1125-CL1 is a mounting fixture for WR-22 to WR-19 standard horn antennas with standard 1.125" circular flanges. The fixture features a 3D printed construction and has a through 1/4-20 hole for convenient tripod mounting, along with four other through holes for 1/4-20 screws for non-tripod mountings. The mounting fixtures for the standard horns with UG-595/U, UG-385/U, etc. flanges are also offered under different model numbers.

Mechanical Specifications:

Item	Specification
Material	PLA
Weight	1.8 Oz
Compatible Flange(s)	UG-383/U, UG-383/U-M
Outline	AX-MTQ1125-C1

ECCN

EAR99

FEATURES

- Sturdy Mechanical Structure
- Universal WR-22 to WR-19 Horn Antenna Mount with 1.125" Circular Flange
- Mounting Interface with Adjustable H- or E-plane Configuration

APPLICATIONS

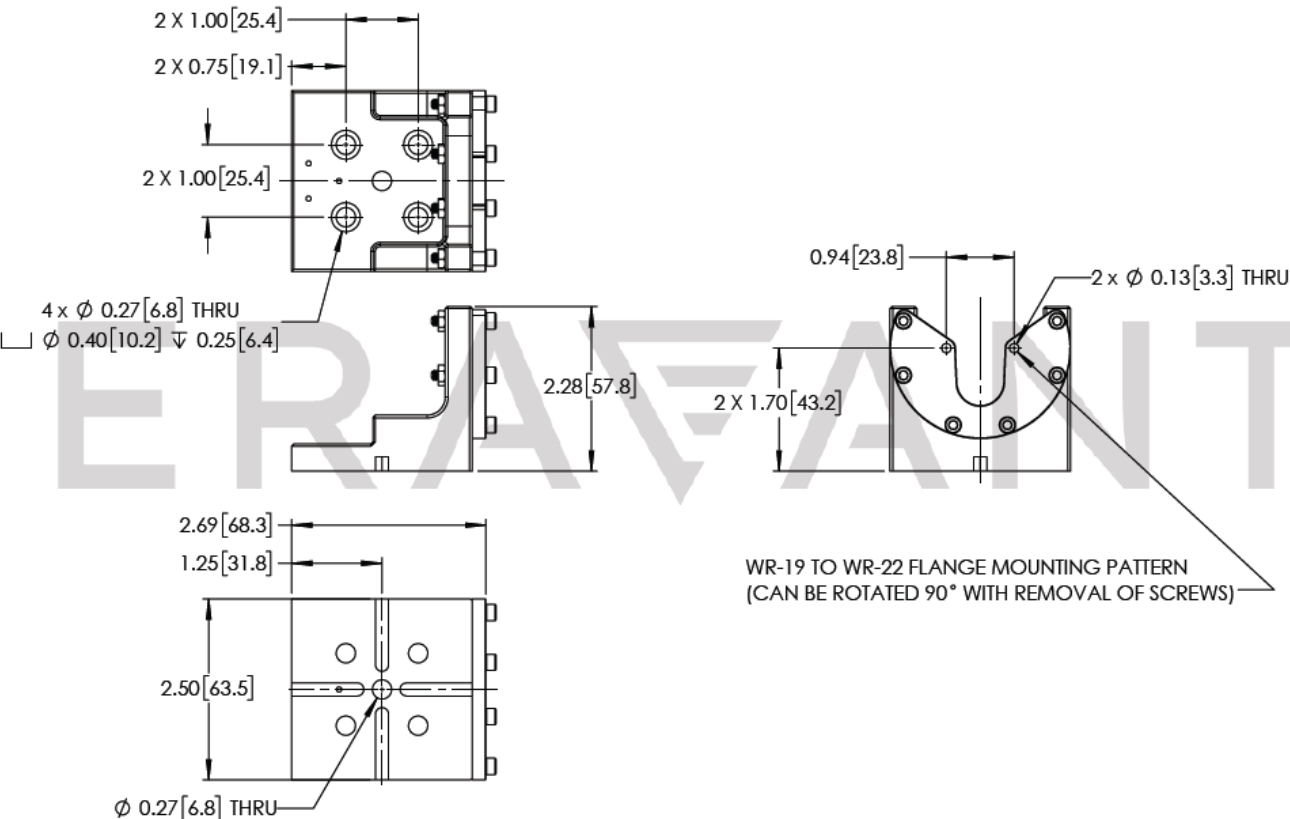

- Antenna Mount
- Antenna Ranges
- Test Lab
- Waveguide Support
