

SAX-MT1312-SL1

Standard Antenna Mounting Fixture, 1.312" Square Flange

SAX-MT1312-SL1 is a mounting fixture for WR-62 standard horn antennas with standard 1.312" square flanges. The fixture features an aluminum construction and has a 1/4-20 hole for convenient tripod mounting, along with four other through holes for 1/4-20 screws for non-tripod mountings. The mounting fixtures for the standard horns with UG-595/U, UG-385/U, etc. flanges are also offered under different model numbers.

Mechanical Specifications:

Item	Specification
Material	Aluminum
Weight	1.8 Oz
Compatible Flange(s)	UG-419/U
Outline	AT-MT621312-S1

*Refer to outline for actual design
