

SAX-MT1500-SL1

Standard Antenna Mounting Fixture, 1.5" Square Flange

SAX-MT1500-SL1 is a mounting fixture for WR-75 standard horn antennas with standard 1.5" square flanges. The fixture features an aluminum construction for a more sturdy and secure mounting interface for horn antennas. The fixture has a standard 1/4-20 threaded hole for convenient tripod mounting. It also has four through holes for 1/4-20 screws for non-tripod mountings. The mounting fixtures for the standard horns with UG-387/U, UG-383/U and UG-599/U etc. flanges are also offered under different model numbers.

Mechanical Specifications:

Item	Specification
Material	Aluminum
Finish	Black Anodized
Weight	5.3 Oz
Outline	AT-MT751500-SL1

ECCN

EAR99

FEATURES

- Sturdy Mechanical Structure
- Universal WR-75 Horn Antenna Mount with 1.5" Square Flange
- Mounting Interface with Adjustable H- or E-plane Configuration

APPLICATIONS

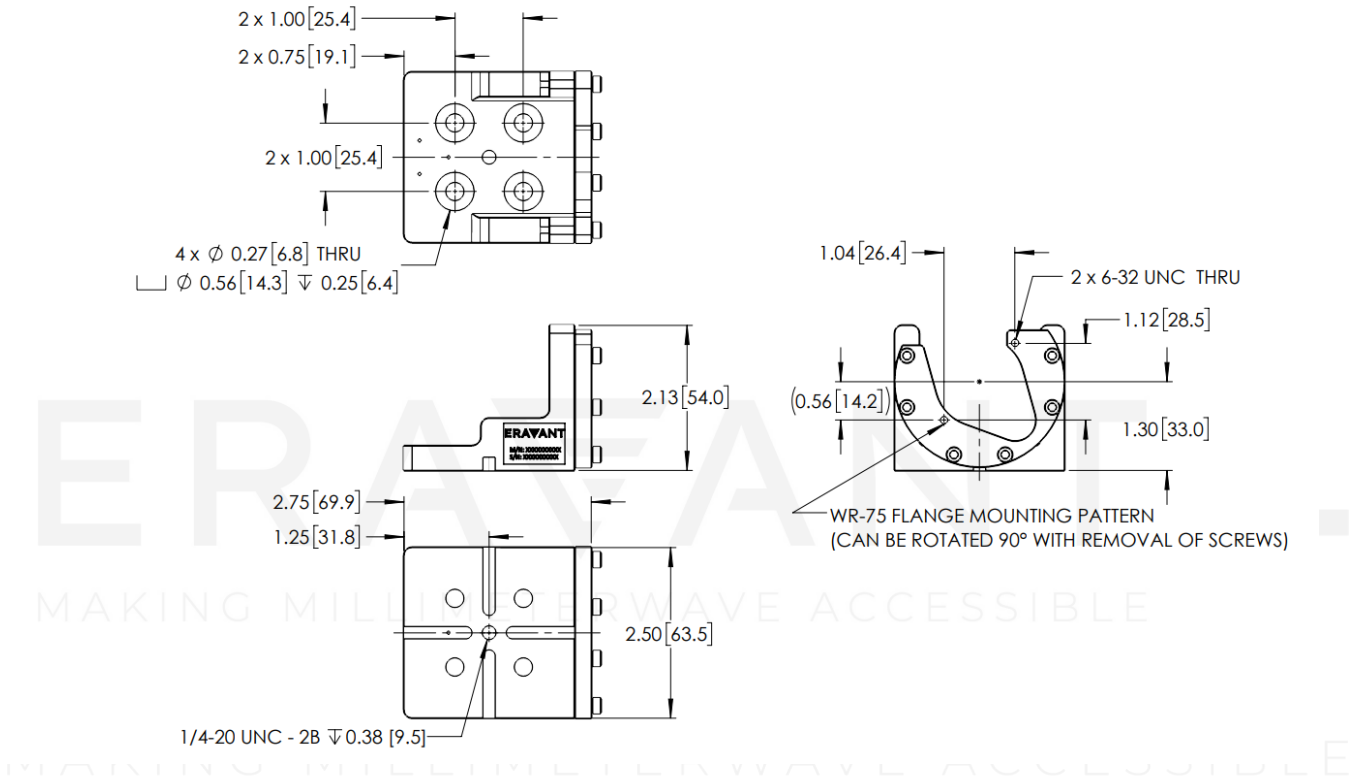

- Antenna Mount
- Antenna Ranges
