

STQ-WG-03010-F1-WPC

WR-03 Straight Waveguide Section, 1", Precision Machined, Metrology Grade, Wellprice

STQ-WG-03010-F1-WPC is a 1" long, WR-03 waveguide straight with UG-387/U-M precision anti-cocking flanges. The waveguide straight covers the frequency range of 220 to 330 GHz. The waveguide straight is manufactured with precision machining as a split-block body, which results in a robust, reinforced mechanical structure that will not flex or bend compared to traditional waveguide sections made with thin-wall tubing and brazed joints. Other lengths are available under different model numbers.

NOTES:

LENGTH "L" IS CUSTOMIZABLE

NOTE:

- On condition that test data is provided it is collected from a sample lot. Actual data may vary slightly from unit to unit. All testing is performed under +25 °C room temperature.
- On condition that simulated test data is provided, actual measured data may slightly vary.
- Eravant reserves the right to change the information presented without notice.

CAUTION:

- If a waveguide is present, any foreign objects in the waveguide will cause performance degradation and may damage or destroy the unit.
