

WR-28 H-Plane Waveguide Bend, Instrumentation Grade, 1.0", 90°

Description:

Model SWB-28090-HM is a 90 degree, WR-28 instrumentation grade waveguide H-plane bend with UG-599/U square flanges. The bend radius is 1.0". Unlike the waveguide products fabricated by the industrial manufacturing process, the waveguide bend is **precisely machined** from a single solid brass block without soldering and blazing. The waveguide is offered to cover the frequency range of 26.5 to 40 GHz.

Features:

- Frequency Range: 26.5 to 40 GHz
- Fully Machined from a Single Brass Block
- Instrumentation Grade

Applications:

- Space and Thermo-Vac
- Test Instrumentation
- Sub-assemblies

Mechanical Specifications:

Item	Specification
Waveguide Size	WR-28 Waveguide with UG-599/U Flanges
Bend Plane	H-Plane
Bend Angle	90 Degrees
Bend Radius	1.0"
Material	Brass
Finish	Gold Plated
Weight	1.0 Oz
Outline	WB-HA-1.0

Mechanical Outline: (Unless otherwise specified, all dimensions are in inches [millimeters])
