

WR-22 Waveguide Open, Fixed

Description:

Model SWO-22-F1 is a fixed waveguide open with a UG-383/U flange covering the frequency range from 33 to 50 GHz. The product consists of a waveguide short (model number **SWS-QU-F1**) and a $\frac{1}{4} \lambda_g$ waveguide shim (model number **SWI-22092-SB**). The waveguide shim is 0.092" thick offering perfect open at the center frequency of 41.5 GHz when combined with the waveguide short. The product is manufactured with a precision machining process to ensure high quality and ruggedness. The open offers good reflection in the entire frequency range.

Features:

- Frequency Range: 33 to 50 GHz
- Good Reflectivity
- Instrumentation Grade

Applications:

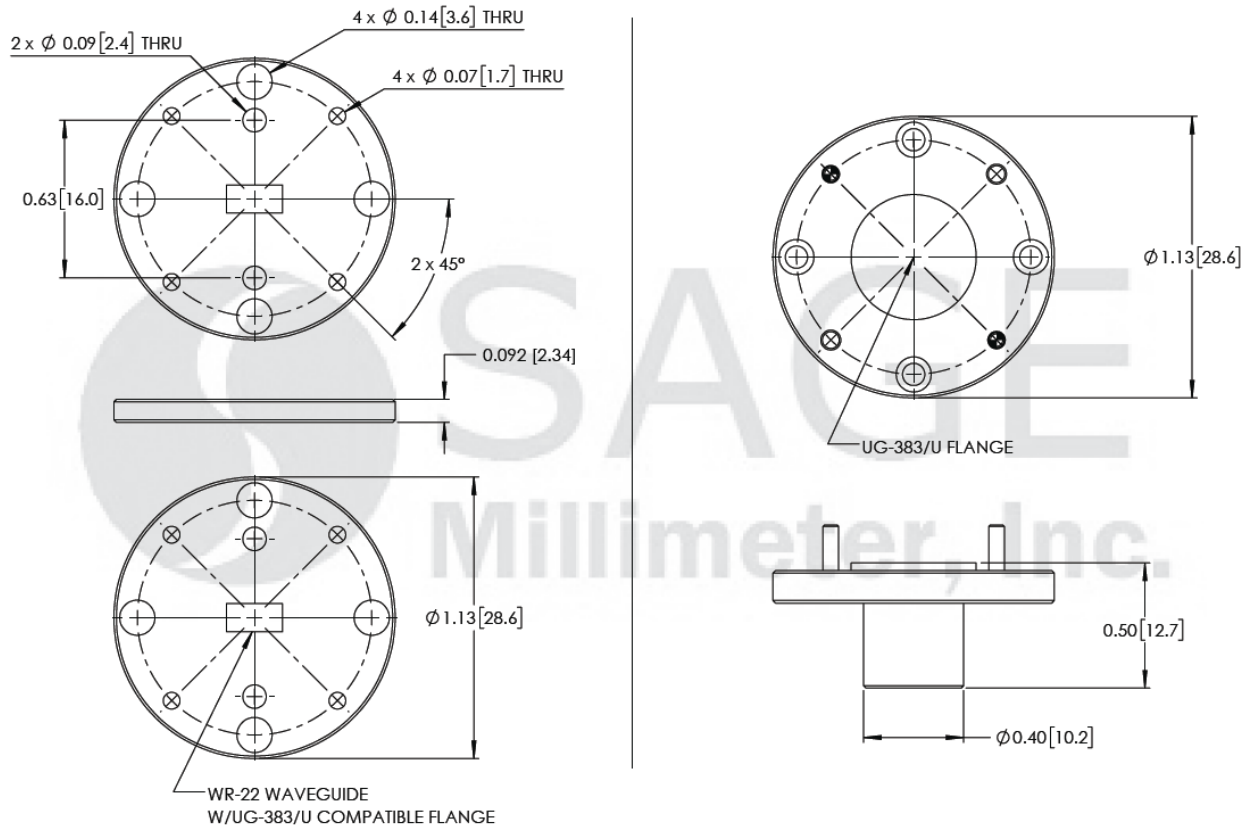

- Test Labs
- Test Instrumentation
- System Calibration

Mechanical Specifications:

Item	Specifications
Waveguide	UG-383/U Flange
Waveguide Flange Material	Brass
Finish	Gold Plated
SWI-22092-SB Length	0.092" (L)
Weight	0.8 Oz (SWS-QU-F1) + 0.5 Oz (SWI-22092-SB)
Outline	WO-QF

WR-22 Waveguide Open, Fixed

Mechanical Outline: (Unless otherwise specified, all dimensions are in inches [millimeters])
